

## Mission statement

At Alpha Plus Guardian Services Ltd, we provide guardianship and pastoral care for international students aged between 8-18 years who are studying here in the UK at Independent Boarding Schools.

Our main aim is to ensure the safety of all of our students whilst they are in the UK. We appoint carefully selected host families who provide a home from home experience for those occasions when the schools close and the students are unable to travel home. We also:

- Arrange transfers to and from airport using a dedicated Alpha Plus transport coordinator
- Provide 24 hour, seven days a week care and support including exeat weekends and half-terms
- Carry out constant liaison between the schools, house parents, parents and students
- Provide supervision of uniform fittings and ordering
- Arrange regular visits to the students
- Ensure that all of our students settle in their new school environment
- Attend parents' meetings, sport matches, concerts and school social events

We provide this level of service to ensure that our students receive the highest possible standard of care whilst they study in the UK, they can travel in safety, have a home from home environment when not at school and have an educational guardian who will act 'in loco parentis' on behalf of their parents.
